TO MOTIVATE YOUNG PEOPLE TO BE BETTER CITIZENS

The Army JROTC Program emphasizes character education, student achievement, wellness, leadership and diversity. It is a cooperative effort on the part of the military services and host institutions to produce successful students and citizens, while fostering in each school a more constructive and disciplined learning environment. JROTC makes substantial contributions to students, schools and communities which benefit greatly from its presence.

JROTC is the Department of Defense's (DoD) largest youth development program in our secondary schools. The purpose as defined in Title 10 United States Code, Section 2031 is to instill in students in United States secondary educational institutions the values of citizenship, service to the United States, personal responsibility and a sense of accomplishment.

6. Stopping substance abuse/Preventing violence
7. Teaching students of all abilities

ARMY JROTC & CHARACTER EDUCATION

JROTC has arguably, one of the most rigorous and effective career-related leadership curriculums. JROTC's leadership development curriculum begins with instruction about leadership theory, which teaches Cadets motivational principles, individual and group management practices, decision making skills, and interpersonal relations. As JROTC Cadets progress through the program, they experience opportunities to lead other Cadets. Cadets follow a chain of command, enabling lower classmen to observe the upper classmen lead, teach and make decisions, before assuming the role themselves. Observing leaders in action enables Cadets to experience authentic responsibility for others, which can instill in them genuine concern for the success of the larger group; a key component of effective leadership.
